

WE INVITE YOU TO JOIN DURING APRIL

TESTICULAR CANCER AWARENESS MONTH

-
- Testicular cancer is the most common cancer in men ages 15 to 35.
 - According to the American Cancer Society, the average age of diagnosis is 33.
 - Early detection is key - it is nearly 100% curable if caught early.
 - A monthly self exam is the best way to stay on top of your testicular health.
